

Application for the diversion of an existing water main

Contents

1. Welcome & introduction
2. Applicants details
3. Site details
4. Check list & declaration

1. Welcome and introduction

South East Water are not the only persons who can install a water main. You can find an approved Self-Lay Provider who can offer excellent services at the link below;

<https://www.lr.org/en/utilities/water-industry-registration-scheme-wirs-wirsae/search/>

When construction is carried out near to our existing water mains a diversion of that main may be required. We aim to make this process as simple and easy as possible.

If you have any questions once you've read this application, then get in touch- we're here to help. You can find the contact details on the back cover.

Reason for diversion

Type of Application

Please tick

- C3- Budget diversion quotation
This provides the costs of the expected diversion works, no diversion works will be completed under this option.

- C4- Full diversion quotation and design
A full quotation for the scheme. Payment can be made and diversion works completed under this option.

4. Checklist and declaration

I/We enclose;

- A site location plan
- A DWG for the site
- A plan showing the difference in the finished lines and levels for the site, required for all highways schemes.

I/We accept that any legal permissions to undertake work on land not in my/our ownership must be obtained by me/us before work can be carried out. It is my/our responsibility to ensure that all legal matters are agreed and in the event of any dispute South East Water will reserve the right to charge me/us for additional costs that may arise.

I/We accept that it may be necessary to consult a solicitor if I/We are unsure of the position.

*In order for us to improve our customer service and delivery of our works it may be required to submit your details to Ofwat or a third party to carry out a satisfaction survey. If you **do not** wish for your details to be used for this basis please tick to opt out here*
